Top Secret - Model and terminal class diagram

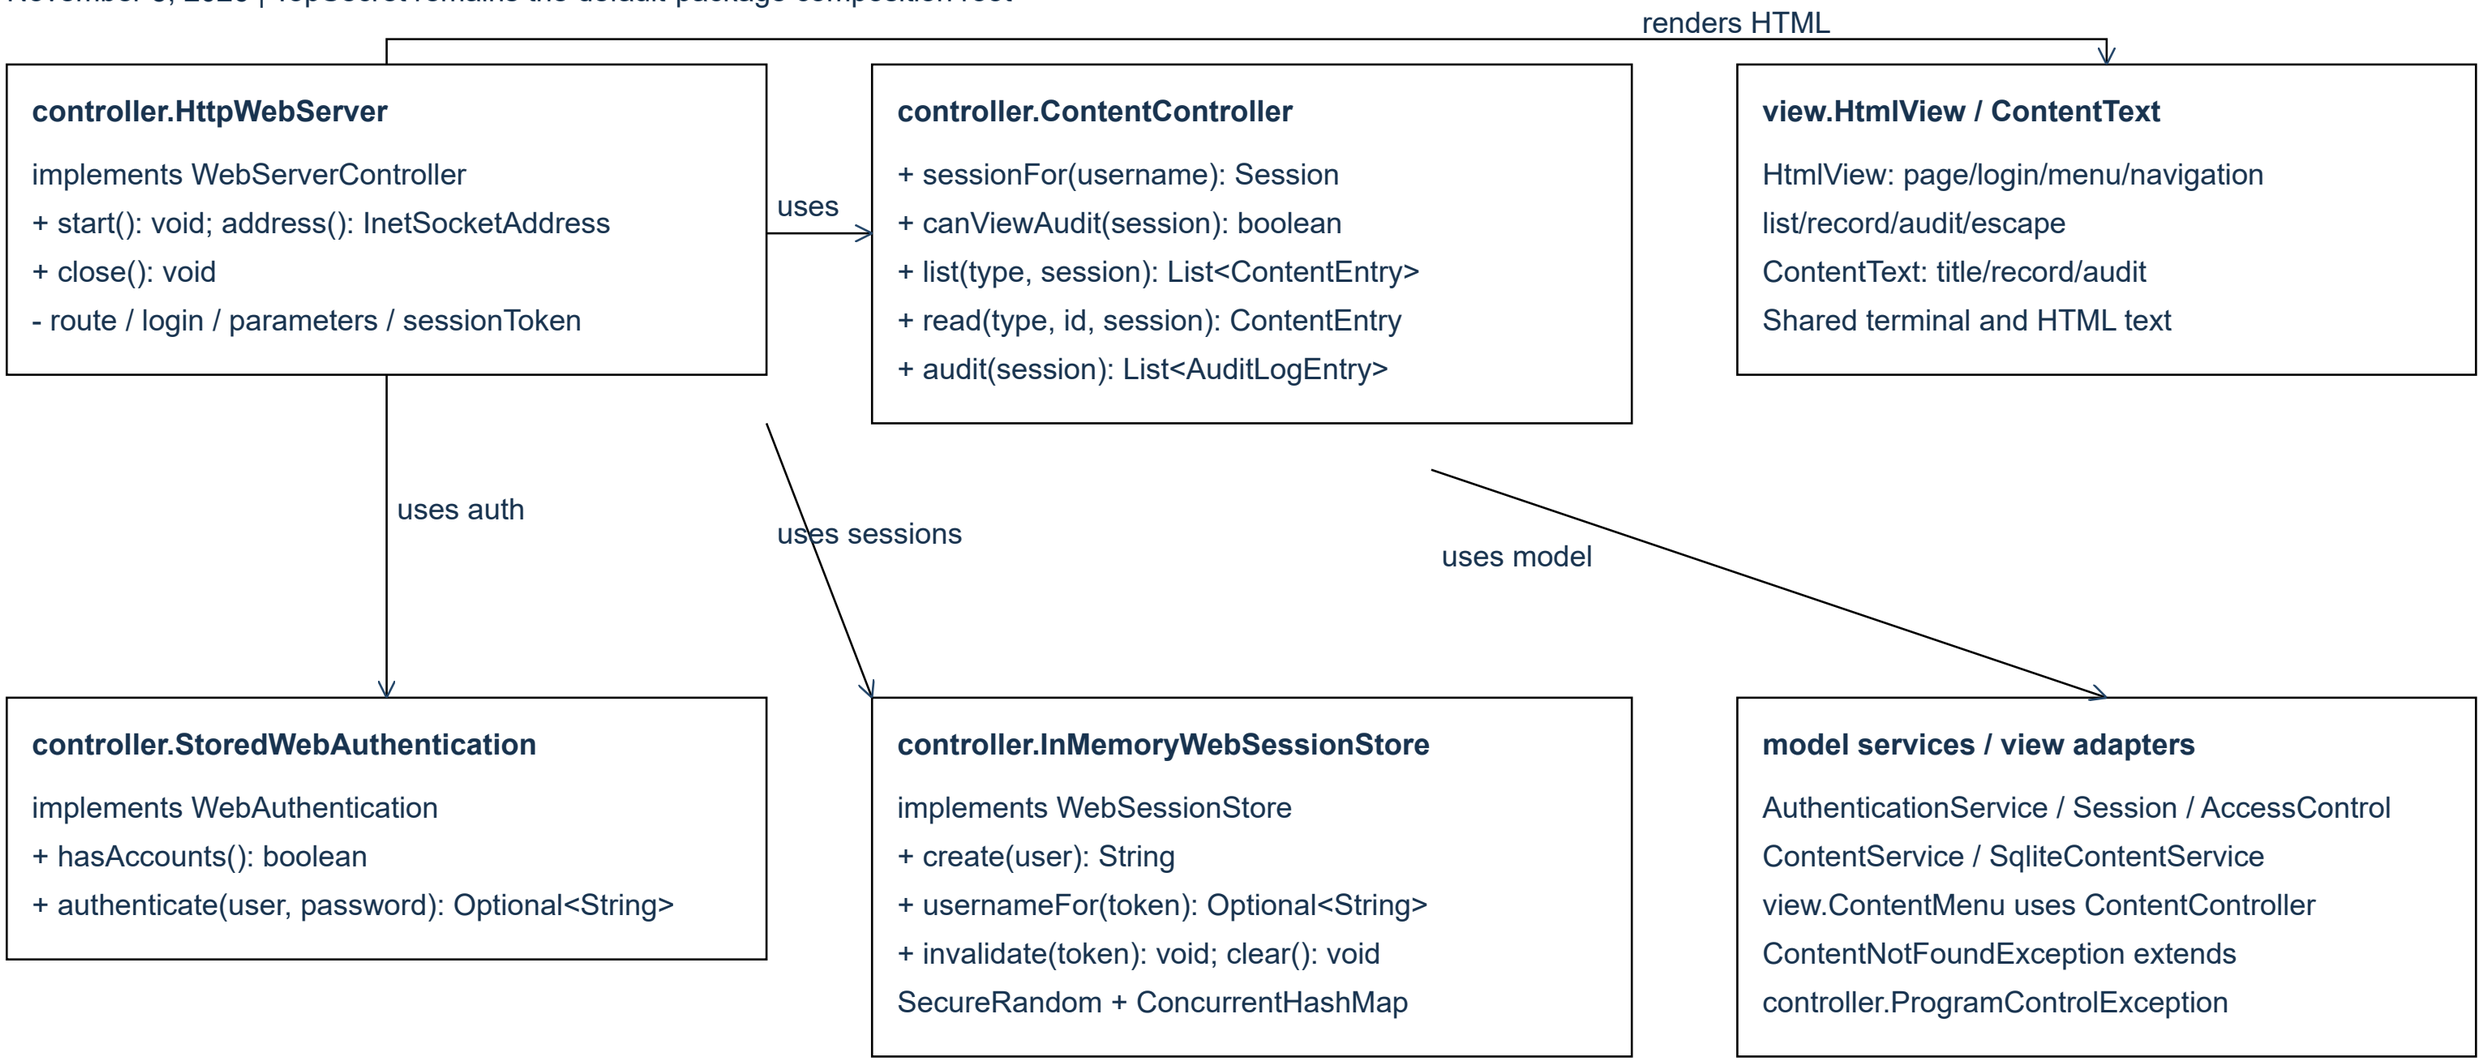

Current implementation snapshot | November 5, 2026

See interface-design.txt and content-model.txt for contracts, integrity rules and regression steps.

Homework 6 - MVC and HTTP controller classes

November 5, 2026 | TopSecret remains the default-package composition root

controller: LaunchMode {TERMINAL, WEB, CHANGE_PASSWORD}; fromArguments(args): LaunchMode

WebServerController: PORT=3002; SESSION_COOKIE=TopSecretSession; extends AutoCloseable

Session cookies have no Expires/Max-Age at login. Logout/restart invalidate in-memory sessions.

All previous domain/persistence classes are in model; terminal menus/effects are in view.
